

Gippsland Community Leadership Program

2005 Application Information Sessions

The Gippsland Community Leadership Program provides a unique opportunity for emerging leaders to gain an in-depth understanding of the issues affecting our region, and to learn from established leaders who are tackling these issues.

More than 200 people have already graduated from GCLP and are now making a valuable contribution to the future direction of the Gippsland community. You could become one of them!

Applications are now open for the 10th Gippsland Community Leadership Program.

Take this opportunity to learn more about GCLP from the people who have been through the Program. Drop in for a chat with participants, graduates, and team and committee members. All welcome, no appointment needed.
